

This correspondence is in reference to the importance of K-Love to me and the Metro Denver area community. K-Love has given me hope and encouragement when down. They are involved in providing information about Christian events around my area and state. No other local station is as in tune with these types of events in Colorado. I believe that the service(s) provided by K-Love is in the public interest here in the Metro area due to the fact that it is a way millions of people here in Colorado can be supported in a positive and encouraging ways to get through the day at work, home and spending time with their family.
